HELPFUL HINTS

- Write **student's name, phone number and address** on the back of every picture.
- Be sure your pen has dried before putting the pictures in the envelope (or on top of each other) to prevent smearing on the front of the pictures.
- Try not to write too much for a 1/4 page - we don't want the print to be too tiny.
- If you would like your pictures returned include a **stamped envelope** with the **student's name** printed on the envelope. Make sure the envelope is large enough and that you have included enough postage.
- Please select pictures carefully - we **cannot fully guarantee** their return.
- *Please do not send pictures that have been **cut out**. They are especially difficult to crop
- *Some choose to create their own collage. If you want to do that, you may include as many pictures on your page as you want. (Must be camera ready.)
Please include first and last name in your ad. You may send suggestions for the layout, but the ultimate layout is under staff discretion. We will try to accommodate your wishes as much as possible.
- Ads submitted digitally must be in **jpeg** format.
- All ads must have **student's first and last name** included in the ad. (You may not remember everyone when you're looking through the book 10 or 20 years from now!) We will automatically add the name if it is not included on your artwork.
(Please see next page.)
